# 01 2025 Marie Skłodowska-Curie Actions (MSCA) results

2025 Marie Skłodowska-Curie Actions (MSCA) **results announcement.**  
The European Commission will provide €105.6 million to fund 31 projects – 14 doctoral training programmes and **17 post-doctoral fellowship programmes.**

Our proposal has reached the stage of **Grant Agreement Preparation (GAP).**  
Evaluation report total score **98.00 %**

**GRANT  
AGREEMENT  
PREPARATION**

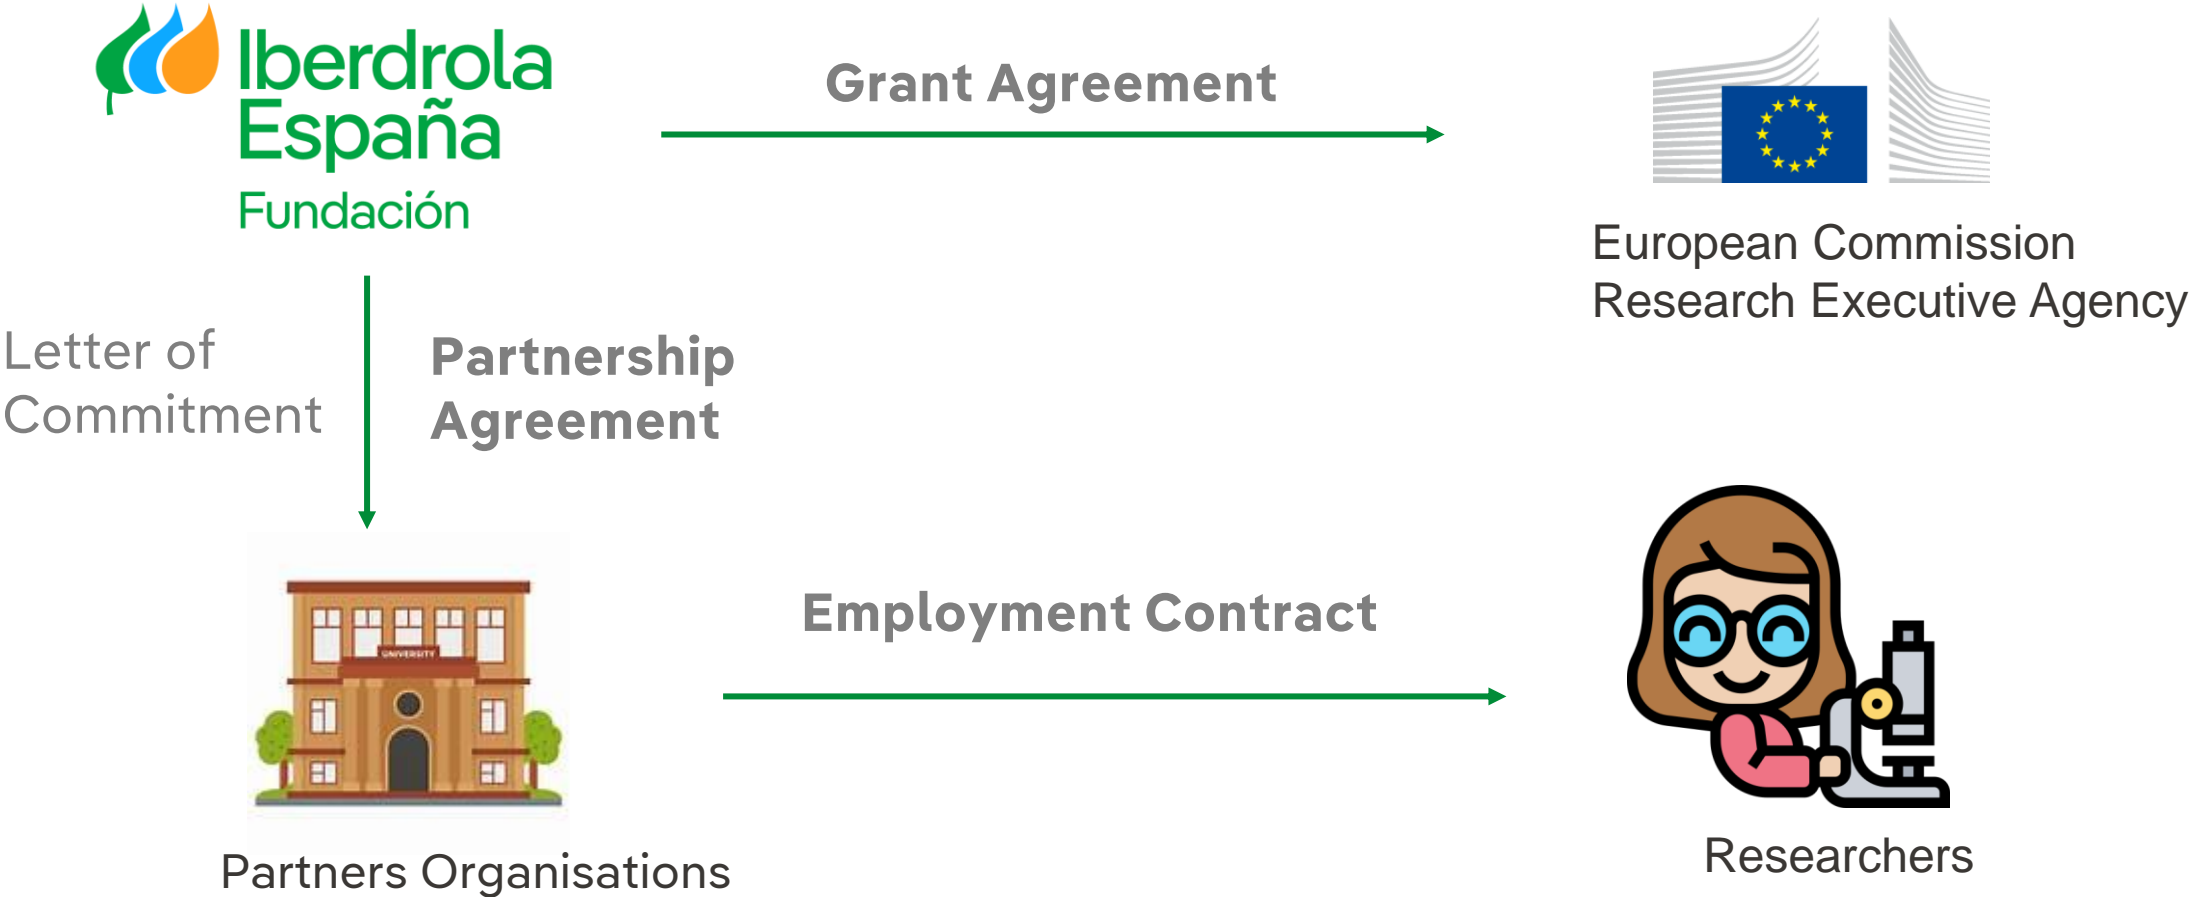

Preparation of the first version of the grant agreement data and annexes: 3 weeks after receiving the GAP invitation letter, by **09/12/2025.**

Deadline for the submission of the 'Declaration of Honour' and letters of commitment from implementing partners: 6 weeks from the date of the official information letter, by **30/12/2025.**

Deadline for the conclusion of the grant agreement by both parties (REA and FIBE): 3 months from the official information letter, by **17/02/2026**

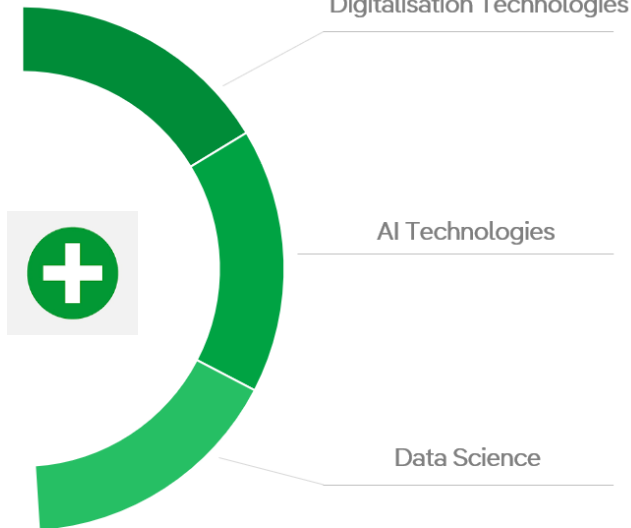

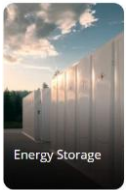

The GAP invitation letter does NOT constitute a formal commitment for funding. The final decision on our project (including the grant amount to be awarded) can be taken only later, when the EC finalises grant preparation and the checks that still need to be done (*LEAR appointment, legal entity validation, financial capacity assessment, non-exclusion check, ethics review, security review, etc.*).

# 02 Legal framework

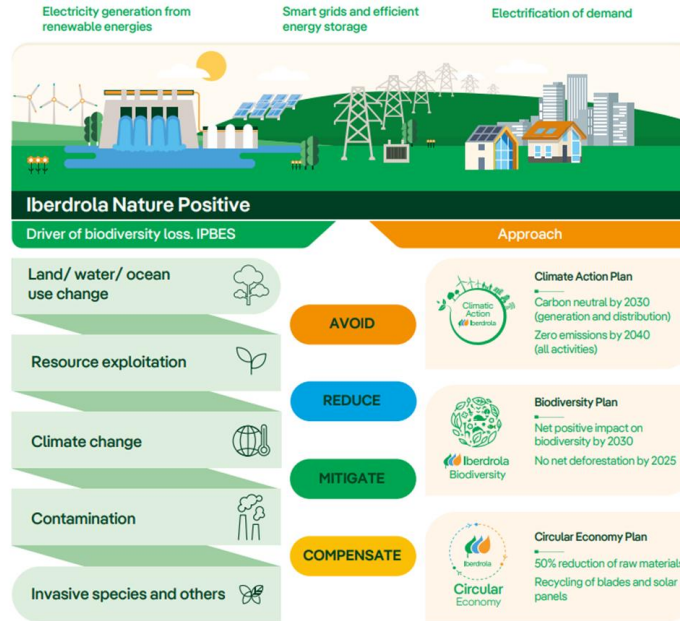

## Technological enablers

## "Iberdrola Positive Nature"

Areas of research

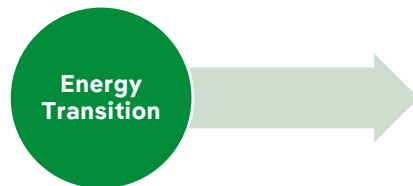

Decarbonised energy systems

Biodiversity and ecosystems quality

Circular Economy

16 researchers  
18 partners  
11 countries  
36 month programme  
(Projects, secondments, training & development)

Implementing partners participation

★ Implementing partners will not confirm their participation in the SE4S programme until fellows accept the employment offer.

# 05 Dissemination of the call

FIBE will prepare, along implementing partners the **dissemination and public outreach strategy** (see Annex I) for the promotion of the programme and its call.

- SE4S & EU logo and official funding acknowledgment
- SE4S launching event
- SE4S website
- Media coverage
- Social media
- Professional associations, research groups and academic networks
- Publications in external webs
- International Events and Conferences
- Former fellows, alumni networks

During the application period **candidates will choose the Implementing Partner** of their choice.

**Dissemination activities will be key to attract quality and diverse top talent.** Successful attraction requires a multi-channel approach focusing on academic excellence, career growth, employer branding, cultural insights and awareness (be everywhere – and be noticeable).

# Annex I – Dissemination channels

Platform/channels/activities & Description	Responsible
<b>SE4S &amp; EU logo and official funding acknowledgment</b> will be used on a multifaceted approach combining international visibility, sectoral outreach and inclusive practices.	FIBE
<b>SE4S launching event:</b> it will take place in Madrid, at Iberdrola’s headquarters and the audience invited will be post-doc researchers with interest in sustainable energy, members of the implementing and associated partners, energy sector experts and media representatives. This online launch event will include, among others, a dedicated presentation about the programme, interviews with key members of participating partners and outstanding energy sector experts. This event will be recorded and available through the SE4S website.	FIBE
<b>SE4S website:</b> A dedicated website will be available from M1 with all key information related to SE4S (conditions and requirements for the fellowships, research areas, implementing and associated partners, host institutions, details for the selection process, review, appeal, terms for the call, key dates, and online application form, training programme, FAQs, legalities, etc.)	FIBE
<b>Media coverage:</b> relevant information about SE4S will be disseminated through Iberdrola’s network of Spanish and International media.	FIBE and Iberdrola Group (Communications team)
<b>Social media such as LinkedIn, X (former Twitter), Instagram, Facebook and YouTube.</b> FIBE and all partners are very active in social media/channels, so all followers will be provided with key information regarding SE4S. FIBE and Associated Partners have over 3.1 M followers; while implementing partners followers reach 4.1 M followers.	FIBE and partner organisations.
<b>Professional associations and research networks</b> relevant to SE4S disciplines will circulate the call among their members, particularly those serving underrepresented groups. Among others: European Educational Research Association (EERA), Science Europe, Initiative for Science in Europe, European Platform of Women Scientists (EPWS), Global STEM Women, the European Network for Women Excellence (ENWE), LinkedIn groups (MSCA, Science Europe, CARE Career advice for research in Europe).	FIBE
<b>Publications in external webs:</b> EURAXESS, Euro Science Job, Academic Positions, Madrid, Ciencia y Tecnología. Announcements will be made through the MSCA communication channels and newsletter, reaching a broad spectrum of researchers.	FIBE
<b>International Events and Conferences:</b> the call will be promoted in conferences, workshops and seminars in external webs, such as European Research & Innovation days 2025, International Conference on Energy Efficiency and Sustainable Energy Policy, International Conference on Energy, Biomass, and Waste engineering, International Conference on energy efficiency, renewable Energy, and Alternative Energy Systems, 18 <sup>th</sup> annual International Conference of Education, Research and Innovation, 11 <sup>th</sup> Conference of the European Survey Research Association	FIBE
<b>Research Groups will disseminate SE4S call</b> within their contact list, including other academic institutions with whom they normally collaborate and may attract interested researchers.	Implementing Partners
<b>Mobilisation of former fellows, alumni networks</b> to act as ambassadors of the programme.	Implementing Partners
<b>Informative meetings</b> will be held with interested researchers	Implementing Partners
<b>Academic and Professional networks:</b> publish information related to SE4S in Partners’ webpage, with a link to the SE4S webpage. They will also disseminate information about SE4S through their mailing lists and Newsletter, among others.	Implementing Partners, Associated Partners.
